

**REMARKS**

In the Office Action claims 10 and 11 were objected to because of informalities and claims 5, 6 and 9 - 11 were objected to as being in improper form. Claims 13 - 16 were rejected to as being directed to non-statutory subject matter. Claims 1 - 16 were rejected as being anticipated by U.S. Patent Publication No. 2002/0087345.

Applicants have cancelled claims 1 - 16 and now present new claims 17 - 24, which correspond to the allowed claims in Japanese Patent No. 4004981, which corresponds, to the present U.S. application. Applicants submit that the new claims address and obviate the objections and rejections stated in the Office Action. Applicants submit that the definition of the expression "AP" is "application program".

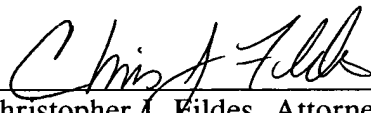

No new matter is presented.

This amendment and request for reconsideration is believed to be fully responsive to the rejections and comments of the examiner and to place this application in condition for allowance. Favorable action is requested.

Respectfully submitted,

Shinji Ishizuka et al.
